

Carnation Trough Grease[®]

Characteristics	Specification
Congealing Point	37.8/43.3
Consistency	200/225
Color, Lovibond, 2cell	1.0 Max
Congealing Point	37.8/43.3

Product Description:

Carnation[®] Trough Grease is a mixture of highly refined oily and waxy long chain hydrocarbons. It consists of saturated straight chain, aliphatic and alicyclic non-polar hydrocarbons. It is hydrophobic, tasteless, odorless and has excellent UV & color stability. It is chemically and biologically inert, noncomedogenic, and does not support pathogenic bacterial growth. Carnation[®] Trough Grease is a blend of White Petrolatum USP meeting requirements for USP 24 and FDA as per 21 CFR 172.880, Paraffin Wax NF meeting FDA requirements as per 21 CFR 172.886 and Light Mineral Oil NF meeting FDA requirements as per 21 CFR 172.878. A typical application for this product is in the baking industry to prevent the dough from adhering to metal surfaces.

Packaging

375.00 lb Steel Drum
