

Titanium Dioxide USP

Characteristics	Specification
% Acid Soluble	.00 - .5% Maximum
% Water Soluble	.00 - .25% Maximum
Lead PPM	.00 – 10.00 PPM Maximum
% Loss on Drying	.00 -.5% Maximum
% Loss on Ignition	.00 - .5% Maximum
Through 325 Mesh	99.5 % Minimum
Assay	.5% Maximum

Description

Titanium Dioxide is an anatase titanium dioxide pigment useful in systems in which water is the dispersing medium. It is water dispersible and forms highly deflocculated suspensions. It has a blue-white color tone.

Food Sources

Used as a whitening and filling agent or as a mineral nutrient. Found in candy as a glaze coating and a whitening agent in toothpastes.

Packaging

50.00 lb Bag
